#### 3. SURFACE PREPARATION & ENVIRONMENTAL CONDITIONS DURING APPLICATION

NEW APPLICATION	Dil and grease should be removed by solvent cleaning according to SSPC-SP1. Steel surfaces should be abrasive blasted to Sa2 <sup>1/2</sup> as per ISO 85D1- 1:2007) followed by application of a suitable protective primer. Loose debris and any type of other contaminations should be cleaned thoroughly prior to the final application. Please consult KBK for coatings system recommendations for each area and purpose.
REPAIRS	Corroded areas should be power tool cleaned to ISD-St3 or blast cleaned to ISD-Sa2 or better. Existing systems should be dry and free from loose
	paint, salt, grease and other contaminants prior to overcoating.
SURFACE SALT LIMITS	35µg/sqm

#### KARDEN PYRAMIDAL PRODUCT CODE: KBK 02024 MARINE TOPCOAT

#### 3. SURFACE PREPARATION & ENVIRONMENTAL CONDITIONS DURING APPLICATION (CONTINUED)

# ENVIRONMENT CONDITIONS The temperature of the surface should be at least 3°C higher than the DewPoint of the air. Temperature and relative humidity should be measured in the vicinity of the substrate. The maximum recommended surface temperature is 40°C. In extreme cases, it may be necessary to reduce film thickness in order to avoid sagging. When applying the paint in confined spaces, provide adequate ventilation during application and drying. The temperature of the mixed paint should be at least 15°C. Otherwise extra solvent may be needed to obtain a proper application viscosity. Relative humidity must not be over %80

#### 4. PACKING & STORAGE CONDITIONS

PACKING DETAILS	15L Component A + 5L Component B in steel pails
STORAGE CONDITIONS	Storing areas should be dry and well ventilated where the temperature is always between 5-30°C. These areas should be seperated from the
	manufacturing fields to eliminate the risks of fire.

#### 5. ENVIRONMENTAL RESPONSIBILITY, HEALTH & SAFETY

GENERAL RULES	Observe the precautionary notices on the label of the container. A material safety data sheet is available upon request and national or local safety regulations should be followed. This product is intended for use by professional applicators.
HEALTH	Avoid skin- and eye contact by wearing overalls, gloves, goggles, mask, etc. Spillage on the skin should immediately be removed by thorough washing with lukewarm water and soap or a suitable industrial cleaner. Eyes should be flushed with fresh water and medical attention sought immediately. Spraying should be carried out under well-ventilated conditions. Avoid inhalation of solvent vapors and paint mist by wearing an air mask.
SAFETY	This product contains flammable materials and should be kept away from sparks and open flames. Smoking in the area should not be permitted.

## 6. DISCLAIMER

DISCLAIMER The information in this data sheet is provided to the best of our knowledge. However, we have no control over either quality or condition of the substrate and other factors affecting the use and application of this product. Therefore, we cannot accept any liability whatsoever or howsoever arising from the performance of the product or for any loss or damage arising from the use of this product.
